THREATEN STRIKE TO HOLD UP WAGES

ACTION SUGGESTED TO SPECIAL CONVENTION OF MINERS YESTERDAY

Would Use It as Weapon to Maintain Present Wage Scale of Bituminous Miners—Will Ask an Increase of 20 Per Cent in Anthracite Field—Take No Action on Howat

(By The Associated Press)
INDIANAPOLIS, Ind., Feb. 14.—Threat of a nationwide coal strike on April 1st, of both bituminous and anthracite union miners was proposed today to the special convention of the United Mine Workers of America by the union scale committee as the weapon to preserve present basic wages for soft coal miners, and win increases for the anthracite workers.

As soon as the report was presented the convention adjourned until tomorrow without any action or debate on the scale proposal or on the threatened fight in behalf of Alexander Howat, the Kansas leader who was expelled from the union.

The delegates held informal conferences thruout the day, however, debating various proposals.

The committee demands included:

Refusal to accept wage reductions in soft coal fields, the fight being to preserve present basic wage scale, adjustment of inequitable differences within and between districts, entailing wage advances for some miners, increase of twenty percent in wages for anthracite tonnage workers, and \$1 a day for day laborers, abolition of the automatic penalty clause for firing miners or operators violating working agreements; limitation of the eight hour day to the time of entry and exit from the mine, pay and one-half for overtime; double pay for Sunday and holiday work, and weekly instead of bi-weekly or monthly pay.

Will Report on Bill to Create District Judges
Will Add Nineteen District and One Circuit Judge

(By The Associated Press)
WASHINGTON, Feb. 14.—The senate judiciary committee to relieve congress in certain judicial districts, agreed today to report a bill providing for 19 additional United States district judges and one additional circuit judge. The committee it was said, will propose that the fourth circuit consisting of the states of Maryland, West Virginia, Virginia, North and South Carolina, shall have an additional judge. It will also propose that the additional district judges shall be distributed as follows:

Two to Massachusetts; two to southern New York and one each in Eastern New York, Eastern Pennsylvania, Western Pennsylvania, Northern Ohio, Northern Illinois, Eastern Michigan, Minnesota, Eastern Missouri, Eastern Oklahoma, Montana, Northern California, Southern California, Northern Texas, Arizona and Northern Georgia.

The committee recently agreed to an increase of thirteen district judges but because of pressure from other districts has now agreed to add six more districts.

Members of the committee predicted tonight that there would be opposition on the floor of the senate to this extension of the list, but asserted that the committee would stand solidly in support of the bill as agreed upon today.

Provides Annual Conference.
The bill also provides that there shall be held in Washington annually a conference of senior circuit judges at which the chief justice of the United States will preside. This it is believed will permit an intelligent discussion of the varying needs of the court and give a substantial basis for any congestion found.

The committee proposes that assignments of district judges within the different circuits shall be made by the respective senior circuit judges who may themselves when occasion requires sit as district judges.

To the chief justice of the United States the committee would assign the decision when conditions in the one circuit request and such cases he would designate the district judge who is to serve the assignment to that circuit of district judges from other circuits. In the illness or incapacity of the senior judge the chief would assign district judges within that circuit.

The congestion of court business within the District of Columbia may be relieved under the bill by the available district judges from nearby states, but the judges of the courts of the District of Columbia are not to be assigned to sit elsewhere.

PEACE MAKERS ARE TRYING TO BRING HARMONY

Want to Get Delegates Together on Revenue Article

(By The Associated Press)
SPRINGFIELD, Ill., Feb. 14.—Peace makers of the constitutional convention were endeavoring tonight to harmonize conflicting ideas on the revenue article in the hope of offering tomorrow a substitute for all pending revenue proposals which will draw all elements of the convention closer together.

Debate which consumed the entire session of the convention today indicated that none of the plans which have been presented and upon which much oratory was spent, have any chance of adoption in their entirety. Through a compromise and a merger of some of the existing proposals some delegates tonight saw hope of drafting a revenue article upon which fifty two members a majority of the convention can agree.

Arguments on revenue and taxation were brought to an abrupt end tonight when in the midst of debate, Delegate Green of Urbana, offered a motion to adjourn until 9 a. m. tomorrow.

Mr. Green is one of the group of volunteers who were trying tonight to prepare the harmony program.

The peace-makers indicated that they will incorporate in their proposal some of the ideas on taxation proposed in a joint communication today from the Illinois Bankers' association, the Illinois Chamber of Commerce and the Illinois Agricultural association.

Section Three of this joint proposal reads: "Taxes on property by valuation shall be uniform and in proportion to its value, provided that in lieu of any tax on intangible property by valuation, taxes may be levied on the income derived from such property. Such taxes or incomes shall be substantial and there shall be no exemptions therefrom, and if graduated the highest rate shall not exceed four times the lowest rate. Taxes may also be levied on profits and incomes derived from salaries, wages or compensation for permanent assembly and the taxing machinery of the state would be bound by the constitution."

This proposal is a modification of some plans previously offered. The proposed committee compromise it was indicated tonight will be an offer of some common ground on which all extremists can center. One extreme leaves the latter of taxation almost entirely in the hands of the legislature. The other exemplified in several different proposals draws hard and fast lines by which the general assembly and the taxing machinery of the state would be bound by the constitution.

Establishment of a ratio between tangible and intangible property was one of the barriers to agreement today.

REED APPROVES TREATY IN PRINCIPLE

(By The Associated Press)
ST. LOUIS, Mo., Feb. 14.—The approving in principle the international treaty calling for limitation of naval armament, United States Senator James A. Reed in an address here tonight on government taxation, declared the United States had been in his opinion too generous in junking battleships, as compared with other nations. It was said to be the senator's first public approval of the arms delegates' action.

Senator Reed criticized the proposed sales tax as unfair to the poorer classes, advocated a variety of taxes and urged the abolition of useless boards and bureaus as a measure leading to government economy.

Senator Reed also criticized the method adopted by the secretary of the treasury Mellon in asking the senate to pass a bill authorizing him to settle the foreign loan question as he saw fit.

"There is a propaganda inspired abroad to obtain cancellation of these debts," he added.

The city lies in the Southern Illinois coal mining section.

PRESIDENT DOES NOT FAVOR BOND ISSUE AT PRESENT

Believes it Impracticable to Raise Large Amount

(By The Associated Press)
WASHINGTON, Feb. 14.—President Harding thinks it is impracticable to raise by bond issue at this time a large sum of money to finance the soldiers' bonus it was stated today at the White House and he is unalterably opposed to the suggested eight point tax program or to a return to any of the taxes that have been repealed.

The executive was reported as being favorably disposed toward the bonus legislation and it was stated that promises made by Republicans in the 1920 primaries had not been lost sight of. It was pointed out, however, that no exact time had been fixed for the passage of an adjusted compensation bill.

The attitude of the executive, it was added had to be that of finding a safe and defensible condition of the fulfillment of the promises made on the one hand and having regard for restored stability on the other.

Holding that there was a question whether there was the same sweeping determination now as during wars responsibility when the government could have raised almost any sum the president was said to doubt the possibility of obtaining now thru a bond issue the sum requested for the soldiers' bonus without an advance in interest rates and the disturbing of the financial tranquility of the country.

Must Refund Billions.
Attention was again called that in the next fifteen months the government must refund some six and one-half billions of dollars of pledges in victory notes and certificates of indebtedness. Secretary Mellon has taken the position that these refunding operations would be handicapped by any additional issue of bonds or short time notes in connection with the soldier's bonus. It was said at the White House that the president's views as to the bonus would be transmitted in writing to the chairman of the senate and house committee dealing with the legislation.

The communication is expected tomorrow. The president's position as outlined at the White House has been given informally to the committee members.

Mr. Harding's objection to the suggested bond issue and tax proposals was regarded in some quarters as presaging a delay in the enactment of the bonus legislation until a subsequent session of congress, but so far as was ascertained this was not the interpretation at the capitol.

Chairman Fordney of the house ways and means committee said the bonus bill would be passed at this session and added that it was his judgment that the first of the cash payments would be made available to the former service men by next October 1st. It was his impression that the cash payments would not entail the financial outlay that some have supposed.

Work on the legislative sections of the bonus bill was continued today by the house sub-committee with the expectation that it would be ready for the entire committee within a few days.

"I think it reasonable to assume if the celebration is held in June I can be in attendance. If a later time is fixed, I think my participation quite unlikely because I am hoping to successfully work out plans to leave very early in July for a trip to the Pacific coast and Alaska."

WINS BIG DAMAGE SUIT AGAINST FATHER-IN-LAW

(By The Associated Press)
CHICAGO, Feb. 14.—After deliberating five minutes a jury here today returned a verdict of \$50,000 damages against Abner Davis, banker and oil man of Wichita Falls, Texas, in a suit brought by his daughter-in-law, Mrs. Isabel Davis, alleging alienation of her husband's affections.

Today's decision was the outcome of the third suit brought by Mrs. Davis. The jury awarded Mrs. Davis \$50,000 in the first trial, then the judgment was appealed and the case remanded and reversed. The second trial resulted in a verdict of \$25,000 damages and this decision was set aside. Mrs. Davis first sued her husband for a separate maintenance maintaining he had an income of \$30,000 a year.

Mr. Davis denied this asserting he was dependent on his father. The suit is still pending.

HENRY C. WALLACE LOOKS WITH FAVOR ON OFFER OF FORD

Secretary of Agriculture Says That it is O. K. if the Terms Are Sufficiently Definite to Make Sure of Operation of the Plant

—Debate Grows Heated at the Hearing

(By The Associated Press)
WASHINGTON, Feb. 14.—Henry C. Wallace, secretary of agriculture, "looks with favor" upon Henry Ford's offer for purchase and lease of the government's nitrate and water power projects at Muscle Shoals, Alabama, "if its terms are sufficiently definite and binding to make sure the plant will be operated continuously for the manufacture of fertilizer."

Dr. Richard C. Tolman, director of the fixed nitrogen research laboratory of the department announced the secretary's position in an authorized statement which he read today to the house military committee. The secretary's views as expressed by the witness were that if the terms were as he had outlined, the proposal would "result in making available a considerably increased supply of fertilizer in time of peace and give an assurance of advocated supplies of explosives in case of need."

W. B. Mayo, chief engineer and personal representative of Henry Ford testifying before the committee repeated that Mr. Ford intended to manufacture fertilizers in their completed forms at the maximum production capacity of the Muscle Shoals plants and would make every effort to manufacture them at a minimum cost to the farmers, using every known formulae and working his chemists meanwhile to discover improved methods.

Mr. Mayo declared it was Mr. Ford's intention to execute the contract if congress accepted it in good faith, and that this included the production of fertilizers.

Says Invited Offer.
At one point Mr. Mayo said the Detroit manufacturer had been invited by the government to make the offer and congress could take it or leave it at its face value.

This announcement followed a heated exchange between the witness and Representative Miller, Republican, Washington. The Washington member insisted that the financial burden on the country would exceed by several millions that assumed by Mr. Ford, while Mr. Mayo submitted estimated expenditures, Mr. Ford would make which totalled more than \$8,000,000 in excess of Mr. Miller's figures.

Chairman Kahn announced at the conclusion of the hearing today that J. W. Worthington, another of Mr. Ford's advisers in the Muscle Shoals transaction, would be asked to testify tomorrow as would Milton Whitney, soil physicist and chief of the bureau of soils of the agricultural department. Mr. Kahn said it appeared that the committee's investigations probably would continue over another week.

Another event scheduled for tomorrow is the hearing at the war department by Secretary Weeks on the offer of Frederick C. Engstrom of Wilmington, N. C. for Muscle Shoals. It was considered probable that Secretary Weeks would submit that proposal to congress, because the senate and house committees had disposed of the Ford offer.

The senate agriculture committee took its first action today on the Ford proposal. It agreed to begin hearings Thursday with Major General Beach, chief of the army engineers, and members of a delegation from Tennessee, including Governor Taylor, who are waiting to testify before the house committee.

CHICAGO PEOPLE WERE FILCHED OF OVER \$7,000,000

Bichsoff Says He Got Four and One-Half Millions

(By The Associated Press)
CHICAGO, Feb. 14.—Investigation of the operations of Raymond J. Bichsoff, 25 year old promoter, today revealed that more than \$7,000,000 had been "harvested" from poor persons mostly of foreign extraction during the past two years by three men who promised rich returns.

Of the \$7,000,000 total, Bichsoff was declared to have obtained approximately \$4,500,000. Leslie Lee Harrington and M. P. West, whom Bichsoff accused of imitating him, were said to have obtained the remainder.

Warrants charging Bichsoff and two of his aides with obtaining money under false pretense were issued yesterday and the police are now searching for Harrington, who was declared to have left the city. West was taken today.

Before a referee in bankruptcy Bichsoff today revealed more of his operations. "I never made any direct promises to pay more than six percent interest except once," Bichsoff said. "That was one month when I found it difficult to get renewals from the notes. Then at that time I never offered 100 percent interest."

He declared that he lost \$2,000,000 in "wild oil deals," in the south. Last month, he asserted, he found it difficult to get renewals on his notes and decided to reorganize a \$5,000,000 corporation.

Only Borrowed \$1,000,000
His original borrowing amounted to \$1,000,000 Bichsoff said, and the other \$3,500,000 he obtained thru "pyramiding."

Bichsoff remarked that if there is any guilt he alone should bear it. He also said that had it not been for the bankruptcy proceedings he would have been able to tide over his present embarrassing situation with the aid of prominent Chicago and New York financiers, whose names he would not give.

Bichsoff's method of operating it was declared was to give promissory notes in return for cash with promised returns of from 19 percent to 150 percent per month. Harrington was said to have raised upward of \$1,000,000 by borrowing money for which he gave as security stock in the United States Novaculite company, said to have been organized by him to manufacture a special paving. West is alleged to have offered an investment which would return 100 percent in six months. He is alleged to have taken in more than \$1,000,000 since last August thru his operations in the Western Land Operators company. A receiver was appointed for this concern today by Judge K. M. Landis and was required to file a fifteen cent bond as evidence of what the court thought of the assets of the company.

When the propagandists in favor of cancellation of the war debts tell about the difficulty the debtors will have in paying, they are careful not to mention the vast acquisitions of territory in Africa which added to the wealth of Great Britain or the French acquisitions in former German territory. We do not envy England or France their added territory but do think that this phase of the war settlements should be taken into consideration by those who want the United States to add \$11,000,000,000 more to its contribution to the expense of the war.

One tangible result of the theatre disaster in Washington has been the rigid inspection of the theatre buildings in other cities. Sometimes the inquiries which come after disasters are of little benefit and seek more than anything else to fix the blame for the disaster after it has occurred. In the present instance the result has been to cause widespread inquiry into the architecture of places of public assemblage.

It is not too much to expect, therefore, that any structural weaknesses that these investigations reveal will be corrected. If this is done in the big cities throughout the country all of those killed in the Washington catastrophe will not have died in vain.

American ingenuity in contriving jobs for the jobless, to tide over the present unemployment emergency is shown by hundreds of reports submitted to Colonel Arthur Woods, of the President's Conference of Unemployment, from cities and towns all over the United States. Many mayors take great pride in the novel means devised by their employment committees to care for the home folks. Fort Smith, Ark., has a rock pile

where men break big stones into little ones, to be mixed with cement and sand to improve the local streets.

Gloucester, Mass., and Evansville, Ind., pay the jobless to chop down condemned city timber, which is sold for fuel. Public spirited citizens in Rock Island, Illinois, have banded together to hire one man one day a week to keep him from becoming an object of charity.

In Erie, Pa., a drive has been made to push the sale of "Erie-made" products, in order to provide local employment. Lima, O., has put 100 men to work two or three days a week, paying them in orders on grocery stores for food. Butte, Mont., raises \$50,000 each month, and extends some sort of aid to 2,500 families. Unemployed single men can get two meals a day of beef stew, vegetables, bread and butter, and coffee, out of this fund. Galesburg, Illinois, has put \$100,000 into water mains and work has gone on right through the winter, while the town provides lodging and food for the destitute.

The suggestion that "Oak Lawn" be used in newspaper references to the tuberculosis sanatorium is made in an open letter which appears in another column. The point is quite well taken, since Oak Lawn is a beautiful name and there is no special advantage in using the words "Tuberculosis Sanatorium." The time was when Oak Lawn was used as an entirely different kind of an institution, but that day has long since passed, and no confusion can result now in using it as the name of the tuberculosis sanatorium.

There is no denying that the shorter application is the more sonorous, and possibly in some instances as the letter suggested there are advantages in forgetting the particular purpose for which the institution is maintained. There is much in a name, after all.

The only thing to be regretted about the open letter is that the writer remains unnamed.

As the subject was presented by visitors experienced in building association affairs at the Chamber of Commerce last night, Jacksonville men were made to feel that one of the greatest needs here is building association interest. This means interest of the kind which will result in the purchase of stock. There is no trouble about lending the money if the funds are made available thru building stock purchases. Certainly the visitors presented records from other cities which merit the most earnest consideration. The need certainly exists.

for more homes in Jacksonville and citizens thru combined effort can bring this about.

Based upon the experience of these other cities, such results can be brought about to the benefit of all parties concerned. The records from other cities indicate that Jacksonville is quite laggard in this matter.

HAS SPENT HALF CENTURY IN STATE

Justice of the Peace W. T. Dyer has recently been reminding friends of the fact that he has just completed his fiftieth year as a resident of Illinois, most of the time having been spent in this county. Squire Dyer came to Illinois from Union City, Tenn., on Feb. 10, 1872, locating first in Azenville where he taught school for a time. He recalled the fact that on the day he arrived in Illinois the thermometer stood well below zero and snow lay on the ground to a depth of six or eight inches.

MEXICAN REBELS MEET DEATH BY FIRING SQUAD

Summary Punishment Meted Out in Chihuahua

(By The Associated Press)

MEXICO CITY, Mex., Feb. 14.—General Antonio Ruiz and Captain Lagardo Perez, of the federal army were executed this morning in Chihuahua City, after having been found guilty of rebellion by a court martial.

This morning General Antonio Pruneda, former commander of the federal troops in the state of Chihuahua also met death at the hands of a firing squad. He had been convicted by court martial on charges of rebellion in connection with the activities of General Murguía, former minister of war.

A number of Pruneda's officers, who came to the capital Sunday by direction of the war office and who were taken into custody with him, are being held for court martial. Pruneda pleaded innocence of the charge laid against him. He once held high military commands in the

states of Coahuila, Chihuahua and Tamaulipas.

The court martials are meeting out summary justice to rebels. The usual program is to catch rebels in the afternoon, try them at night and execute them the following morning. The incipient uprisings are said to be borne of discontent over economic conditions or disgruntlement with the central government. They are being reported in widely scattered regions, but high officials here declare that they do not constitute a serious threat and that the government is prepared to meet all emergencies.

EXCITED TRADING KEEPS WHEAT ON THE JUMP

(By The Associated Press)

CHICAGO, Feb. 14.—Excited trading and a big jump in prices kept the wheat pit in a whirl today on "change here." The scene at the opening, especially, was one of the wildest witnessed for a long while and altho the disturbance later was somewhat subdued the market was again seething at the close.

The major part of a rise of 6 1-2 cents a bushel which took place at the outset, was retained when the closing gong halted further business with the market quivering at 1.38 1-2 to 1.38 5-8 a bushel for May delivery and \$1.21 3-4 to \$1.21 7-8 for July, the two months in which speculative dealings are at present centered.

Tonight leaders who had acted on a belief in higher prices, were credited with having bought additional holdings instead of selling out. According to current gossip, the bulk of the day's selling came from miscellaneous sources and was chiefly to secure profits resulting from the sudden bulge in values.

All authorities agreed that the chief immediate cause of today's advance in prices here was a sensational advance at Liverpool and other foreign market centers while United States markets were closed during yesterday's holiday.

OREGON TO BECOME FLOATING MEMORIAL

(By The Associated Press)

WASHINGTON, Feb. 14.—Under scrapping provisions of the naval treaty, the historic battleship Oregon will probably become a stationary floating memorial to her great days as "Bulldog of the Navy."

Her big guns that roared in triumph at Santiago will be silenced. The pulse of huge engines that drove her 14,000 miles to reach the fighting front will be stilled forever; but in appearance she will remain as she was to stir the pride of future generations of Americans.

The Oregon and the Illinois may be returned when all their fighting equipment, according to the treaty, has been removed.

The Illinois was turned over to the state of New York for military purposes, some time ago.

SCHOOL OF INSTRUCTION FOR DEPUTY COLLECTORS

Collector of Internal Revenue, George W. Schwaner is this week sending out his entire force of field deputy collectors for the purpose of assisting taxpayers to prepare their income tax returns.

However, realizing the importance of having every deputy become thoroughly familiar with the requirements of the new revenue act, he arranged for a school of instruction which was conducted Thursday, Friday and Saturday of last week under the direction of Charles G. Rogers, Assistant Supervisor of Collectors' Offices.

Mr. Rogers is one of the most efficient men in the service, and he imparted to the field deputies a wealth of knowledge secured through many years of practical work with internal revenue laws and regulations and by a close study of the Revenue Act of 1921 under which taxes are now being collected.

The field deputies went back to their respective posts of duty realizing they had secured from the school of instruction as much practical knowledge of internal revenue laws and regulations as they would have obtained in many weeks of regular work in the field.

Chicago, Feb. 14.—With the announcement that Joplin would retain its franchise in the Western League, President Terney said tonight that the circuit for 1922 would remain intact. There is no possibility of Denver or Lincoln obtaining a franchise he said.

A LETTER FROM ARIZONA

The following letter was received by S. M. Henderson, from Mrs. Henderson at Tucson, Arizona. It will be of special interest to many Morgan county people:

Sunday, 12:45 p. m.

Just came home from church a few minutes ago. You'd swear it was late Spring time in you were here. I'm wondering if you will not be better pleased with my letter if I just drop my pen and run off in this good sunshine a few hours, and walk as far as I can and tell you what I have learned when I get back. Guess I'll eat a bite and go.

Brother Berry preached a most convincing sermon, the ninth of his series on "The Evidence of the Truth of the Scriptures and Divinity of Christ. The little church is too small for the big Sunday school and there must be a new one as funds can be used. This is a town where a great deal of Foreign Mission work can and must be done.

Yesterday was a most exciting day in Tucson. They were voting on a site for a new high school building to cost much more than half a million dollars, and it is to be built in the second block south of us. That is, it will occupy all of that block. In front of it, to the west, is another great block which is the Athletic field, and just next to it on the south is a park. This is the beatingest city for school that I ever saw in my life. They've got a great school wherever they can stick one.

It is simple amazing how they clear, pure air does brace and strengthen one.

Sunday Evening: I took my walk, as I spoke of doing, and am home again to try to tell about it. Oh! But where I have been, and what I have seen!

Just happened to get acquainted with some very friendly people named Stewart, way out by the foot of the mountain with the big "A" on it, and they were just going home in their car. He is from Missouri and his wife is a Spanish woman. They invited me, over and over, to come and see them, and offered me more rides in their car. It is so easy to make friends out here.

Met another man and his wife who had climbed to the top of the "A" mountain. They told me that the "A" is one hundred feet from one side of the bottom to the other. There is a flagstaff on the peak of the mountain and an old mine is one side. If I had anybody who can walk as far as I can to go with me, we would start out some day in the morning and take our dinner and just make a day of it, if you can imagine a jaunt like that in January.

There is a creditable sized town out there at the foot of those peaks, and it even climbs part way up. One of them I could see two houses, way, way up. Some of the houses are beautiful and there are concrete walks and expensive shrubbery set out. Many of the houses would be a credit to any place like Jacksonville.

I didn't even get chilly and was out from half past two until after six, without my jacket buttoned up. I have no fire in my room now and have had a window open wide all the while I was gone. I saw a lovely big pink rose last evening, blooming out in the open yard. This winter is milder than usual, tho, they tell me. I'm glad of it.

Am home from evening service, and have kindled a little fire. The sermon was very forcible. Next Sunday night he begins a series of sessions on "The Holy Spirit." The last of the series will be on "The Unpardonable Sin."

Well, maybe I saw several more interesting things this afternoon. I crossed the Santa Cruz river twice, over two different bridges, the first time over a fine bridge, with the Stewarts, in their car. I never saw a bridge like that last one, but will try to tell about it another time. I saw, in the distance, the Government Deaf and Dumb school, and the Tucson Auto Camp park. I have been wanting to see that Auto camp ever since I came here.

I found the Tucson Greenhouses, and the Tucson farms they saw so much about. I got this big of Spanish from a sign stuck up by the road. "No tirren basura en esta propiedad." "Do not dump rubbish on this property." Is the English translation.

I found Clearwater swimming pool and deer hall. I saw a very enough line of the old wall of Tucson-in-the-long-ago, it is made of adobe bricks.

You may think you see a few cars on the Jacksonville streets, but they just streak by all the time out here, on all the best streets and roads.

I venture to prophesy that I'll sleep tonight. One feels like a different person after one of those long walks. Oh say! What would you think to see a great pile of bricks lying ready for a great building and each one wrapped in a separate piece of thick paper? Do they ever do that in Illinois? Seemed funny to me.

You'd just gap if you could see the magnificent scale this city is laid out on, and could see how it is filling in. They say they'll have 50,000 population in ten years now. This town out by the mountains is called the Menlo Park addition.

Must not forget to tell you what you asked about the cactus. The barrel cactus hasn't anything you could call a stem. It grows much like a barrel the not so large as a barrel, and they cut off the top, which looks like a big lid when it is off, and they get the moisture from the inside by churning a tin with a stick or an ax handle until the water stands in it.

You provide a good supply of water and some food, too, if you go off into a region where you might lose your way, or break your car. You'll take some blankets, too, for you might have to stay out all night. There is a lost mine out near Tucson. It assayed astonishingly rich, and

FIRING STILL CONTINUES IN BELFAST STREETS

Twenty Two Have Been Killed Since Last Saturday

LONDON, Feb. 14.—Shooting continued through Tuesday in Belfast. Four persons were killed and more than sixty wounded. The wounded list does not include many persons suffering minor injuries.

British troops were brought into Belfast today to preserve order. They had hardly assumed their duties before one of the soldiers was shot and wounded.

Michael Collins, head of the provisional government in Ireland, announced today to Winston Spencer Churchill, the British secretary for the colonies that he could immediately release a number of the kidnapped Clsterites. Mr. Collins started from Dublin for London tonight to consult with the British government about the situation. The general convention of the Sinn Fein has been set for Feb. 21 and political circles here believe that a majority vote in favor of the treaty between Ireland and Great Britain will result.

Lord Birkenhead, the high chancellor, in a speech in the house of lords today said that altho the government had authorized a suspension of the military evacuation of Ireland it would continue the policy of holding the scales even between the north and the south, making full allowance for the difficulties of the provisional government. He believed there would be an ultimate peaceful settlement of the controversy.

SPRINGFIELD HIGH DEFEATED ATHENS

Springfield, Ill., Feb. 14.—Springfield High school defeated the fast Athens quintet here tonight in a hard fought game by a score of 26 to 14.

Athens had defeated the capitol city team early in the season on their own floor by a large score.

the sample is here at the government office under a glass dome, but when the fellow tried to go back to his claim he never found it.

If you ever come out here, you'll walk some; never doubt it. Well, this is one of my busy days so I will close.

(Another letter, dated January 23rd, is as follows:)

Have just written to the Jacksonville children, and told them of my mean cold. I caught a severe cold when our weather changed, about the middle of last week. It did not get real cold weather, but froze an icicle or two. Did not snow any here.

Must soon go to the bank. They do not open until ten. Poor hard working bankers. It is near the end of January now, and probably the weather will not remain cold very long. Some folks sat out in the sun bareheaded yesterday, with no wraps on.

One little sheet iron air tight heater warms our whole church and you would just laugh to see the dinky little chimney on the building. Housebuilding goes on all winter. The president of our ladies Aid is the wife of a builder. She says that a carpenter who will work, can do well all winter. My neighbor wants me to walk down town with her, so I close.

Well, maybe I saw several more interesting things this afternoon. I crossed the Santa Cruz river twice, over two different bridges, the first time over a fine bridge, with the Stewarts, in their car. I never saw a bridge like that last one, but will try to tell about it another time. I saw, in the distance, the Government Deaf and Dumb school, and the Tucson Auto Camp park. I have been wanting to see that Auto camp ever since I came here.

I found the Tucson Greenhouses, and the Tucson farms they saw so much about. I got this big of Spanish from a sign stuck up by the road. "No tirren basura en esta propiedad." "Do not dump rubbish on this property." Is the English translation.

I found Clearwater swimming pool and deer hall. I saw a very enough line of the old wall of Tucson-in-the-long-ago, it is made of adobe bricks.

You may think you see a few cars on the Jacksonville streets, but they just streak by all the time out here, on all the best streets and roads.

I venture to prophesy that I'll sleep tonight. One feels like a different person after one of those long walks. Oh say! What would you think to see a great pile of bricks lying ready for a great building and each one wrapped in a separate piece of thick paper? Do they ever do that in Illinois? Seemed funny to me.

You'd just gap if you could see the magnificent scale this city is laid out on, and could see how it is filling in. They say they'll have 50,000 population in ten years now. This town out by the mountains is called the Menlo Park addition.

Must not forget to tell you what you asked about the cactus. The barrel cactus hasn't anything you could call a stem. It grows much like a barrel the not so large as a barrel, and they cut off the top, which looks like a big lid when it is off, and they get the moisture from the inside by churning a tin with a stick or an ax handle until the water stands in it.

You provide a good supply of water and some food, too, if you go off into a region where you might lose your way, or break your car. You'll take some blankets, too, for you might have to stay out all night. There is a lost mine out near Tucson. It assayed astonishingly rich, and

The Art of Wearing Rings

Never wear two diamond rings close together; a better effect will be had if a turquoise, opal or emerald is placed between.

Do not wear a ruby next a plain gold ring for beauty is lost in hat way; a ring with pearls or small diamonds adds much to the fire of rubies.

If you have a large or gorgeous ring, wear no other on that hand.

Never wear an antique or an odd ring and a modern setting at the same time.

The big, strong hand appears to better advantage with just the heavy signet ring, although one large set ring may be used.

If a ring is worn on the index finger the rest of the hand must be ringless.

The whiter the hand the more brilliant appear the gems worn, and a little study of contrasts will enable milady to avoid incongruities in jewelry, as well as wearing apparel.

We will be glad to give personal advice on this subject to any one desiring it.

WILL PAVE COLLEGE AVENUE THIS YEAR

This Was Decision of Board of Board of Local Improvement Yesterday.

The board of local improvement at an adjourned session held Tuesday, passed the resolution providing for the paving of West College avenue with asphalt. The action was taken after the whole matter of the improvement had been fully investigated. Following the first hearing, a representative of the city interviewed the property holders who were not present at the hearing and a record was made as to the opinions of all persons directly interested. The final tabulation gave the following figures: Against, 2,713 feet; For, 4,211 feet; Neutral, 1,837 feet; Favoring postponement, 615 feet; Absent, 2,224 feet.

An effort was made to interview all property owners but this was not entirely possible, some of them being non-resident and others being out of the city.

The estimate cost for a re-topping job was \$6,891 per lineal foot and the estimated cost for new job is \$8,741. Engineer Henderson called attention to the fact that the pavement cost cannot exceed the figure given and that there is a good possibility of securing a less price. That has been the experience in a number of other cities where contracts have been recently let.

Queen Incubators Built to Hatch Without Trouble

QUEEN Incubators are famous for their large hatches of strong, healthy chicks that grow.

The Queen is accurately regulated, taking care of a temperature variation of 70 degrees without danger. It is built of genuine Redwood—very scarce in these days of imitation and substitution. Redwood does not absorb the odor from hatching eggs. Cheaper woods and pasteboard lining in iron and tin machines retain the odors to weaken the hatching chicks.

The Queen has double walls of California Redwood, with insulation between. The Queen hot water system prevents the eggs from drying out and provides ample moisture for the hatching chick. The Queen will come nearer to running itself without any more than ordinary attention than any other incubator made.

Queen Brooders

The Queen Colony Brooder is a new and improved design of brooder stove.

As will be seen from the illustration, the check and draft lids are cast together and operated together. Thus, when the fire is too hot, the wafer expands and closes the draft and opens the check, both at the same time. When it is too cool, the wafer contracts and closes the check and opens the draft. This keeps an even heat all the time, night and day, in cold weather or warm, and does it automatically. You don't have to pay any attention to it whatsoever. Just set the regulator for the proper temperature at the start of the season—it will do the rest.

The Queen stove burns any kind of fuel with equally satisfactory results.

DRAMATIC ENDING IN WILL CONTEST

Louise McCreery Tells Court Suit to Break Will of Nephew Was Unfounded—Judge O. P. Thompson Was One of Attorneys for Defendants.

The McCreery will contest came to a dramatic ending in the Sangamon county circuit court in Springfield yesterday morning when Louise McCreery one of the complainants arose and told the court that he was convinced that his nephew, John H. McCreery, was of sound mind and memory and that the charge of fraud was unfounded. He further asked the court to dismiss his bill.

The action of Mr. McCreery took his attorneys completely by surprise, as the jury had been selected and the hearing of the case entered upon.

The suit was one involving the estate of the late John H. McCreery, for many years owner of the St. Nichols hotel. Mr. McCreery died November 20, 1920, leaving an estate valued at over \$500,000. He gave the bulk of this estate to Alice B. Henry, who had made her home with the McCreery family for many years, and Charles S. Bartholf, the latter being executor of the will.

Louise McCreery, of New Erie, Mich., an uncle of J. H. McCreery, brought suit to set aside the will and the legal battle promised to be a hard fought one.

Judge Owen P. Thompson, of this city, was associated in the case with Thomas Masters, representing the defendants. By the action of Louise McCreery yesterday the estate, including the hotel properties, will pass according to the terms of the will.

HOUSING PROBLEM UNDER DISCUSSION

Men Experienced in Building Association Affairs Addressed C. of C. Forum Meeting—Show Fine Results in Other Cities.

"The Housing Question," was the theme considered at the Forum session of the Chamber of Commerce Tuesday night. It developed that in the opinion of the housing committee, that the solution of the Jacksonville situation can be found only in the development of interest in building association projects. This seems to be the experience of other cities also and a number of men experienced in building association work were present to tell of the possibilities.

As a result of the statements by these experts and the general discussion which followed their addresses, the Forum went on to the appointment of a committee to see what can be done for the development of the business of the Jacksonville Building association or the formation of a new organization.

Building Association Expert.
Dr. Carl E. Black, chairman of the Forum, called the meeting to order last night and the session began with mass singing, led by Harlan Williamson. A brief statement was made with reference to the purpose of the gathering and then the following men were introduced for brief addresses: S. R. Evans, of Mattoon, secretary Mattoon Building & Loan association; W. B. Whitlock, Springfield, state auditor's office; Herman Pierick, Springfield, president Home Building & Loan association; C. J. Peterson, Springfield, cashier Commercial Trust & Savings Bank; H. M. Snape, Springfield, secretary Springfield Building & Loan association.

Mr. Evans made the principal address, outlining the growth of the association business in Mattoon. In that city of 13,500 population, there are now three building associations, with assets totaling \$2,500,000. The banks of Mattoon are very cordial in their attitude to the associations and in fact, the president of one of the banks is the president of one of the associations.

In discussing the local situation, Mr. Evans stated frankly his opinion that an association could not succeed without the sympathy and co-operation of the banking interests.

Local Men Spoke.
Following the talks by the visitors, Dr. J. O. Applebee, secretary of the local association; Fount J. Andrews, E. F. Johnson and J. F. Claus spoke. At the conclusion of the discussion, a motion was made by E. H. Gray suggesting that the directors be asked to bring about the appointment of a committee for the development of a building association plan. This motion was unanimously carried, a second being offered by Mr. Claus.

A social hour followed the formal meeting, during which refreshments were served.

About 100 men were present, among them a number of contractors, builders and carpenters. Genuine interest was manifest in the subject presented and it was the belief of all present that development of the building association plan will go a long way toward solving the difficult housing situation which exists here.

Mr. Evans spoke of the advantage of having several associations in one city, declaring that the competition increased the interest and enthusiasm. Mattoon since the three associations have been in existence, has developed a building program in a much larger extent. The speaker explained the great advantage that the associations were to the city, especially after a tornado of a few years ago, destroyed nearly 700 houses. To indicate the practice of having several associations in one city, he quoted figures to show the numbers in several cities: Champaign, 6; Springfield, 10; Beardstown, 3; Quincy, 3.

State Supervision.
W. B. Whitlock, who has charge of the building and loan associations thru his position as state auditor, explained that the law provides for rigid supervision so that the interests of investors are safeguarded. Mr. Whitlock gave some figures to show the millions of dollars in the state of Illinois invested in building association projects.

Mr. Pierick spoke from an experience of 27 years and told of the tremendous advantage that the associations had been in building up Springfield.

Mr. Peterson gave some figures along the same line and spoke also of the cordial relationship between the building associations and the Springfield banks. There the banks feel that it is much better to encourage the expenditure in Springfield of funds thru the building associations than the purchase of stocks or bonds which will take the money away from the city.

Mr. Snape, like some of his predecessors, referred to the character advantage that comes thru building associations—that is in the development of thrift. Many people save in that way who otherwise would spend all of their money and thousands become home owners thru association plans who would otherwise remain tenants thruout their lives.

"After that," said the man, "It's not the mule's fault"

Blame for injury depends on how much chance the victim had to make himself safe.

"The first time a mule kicks me," said a wise man, "it's the mule's fault. If it happens again, it's my fault."

A good many people are staying within kicking distance of tea or coffee, who have had a chance to know better.

They have learned that tea or coffee at night keeps them awake. They know it whips up the nerves. They know what medical opinion has so often said about the effect of the drug element in tea and coffee upon the nervous system—and how indigestion, headaches, high blood pressure and various ills so often follow the use of tea or coffee.

Knowing this, they fail to keep out of the way. Where does the blame belong, then, when the final break-down comes?

There's safety in Postum, and charm, too. Postum has a full, rich flavor much like that of the better grades of coffee, and it is free from any harmful element whatsoever.

Whether or not you've had your warning from tea or coffee, why not step over on the safe side? Why not do what so many others have done—try Postum for ten days, learn how delightful and satisfying it is—and learn how much improvement there can be for you?

You can get Postum wherever good food and drink are sold or served, and it only takes a word from you to your grocer or restaurant waiter, to make this move to the safe side, at once.

Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes.

OLD JACKSONVILLE A GOOD MAN GONE

(BY ENSLEY MOORE)
Member Illinois State Historical Society

A member of the family has kindly furnished the following: "Mr. William Epler died in Lake Charles, Louisiana, Friday, February 3rd; funeral there the 5th.

"His family were all with him. He was eighty six years of age. He was educated at Illinois College and always felt a great interest in and love for the institution. "In early life he lived for a number of years in the west, in Montana, Nevada and California, engaged in government survey. He made the general survey of the Central Pacific right-of-way between Salt Lake City and California.

"He was the last living member of the first Constitutional Convention of Nevada, that formed the Constitution.

For ten years he was the president of the Centennial Bank of Virginia, Illinois. He was a great traveller and always a student."

Mr. Epler was twice married; first to Miss Newman of Minnesota. Mrs. R. W. Mills of Virginia, Ill., being their only child.

The second marriage was to Miss Ella Conover, their children being Myron L. Epler, now a banker in Lake Charles, La.; Mrs. Florence Epler Watkins, of Lake Charles, and Mrs. Clara Dubois of the same place.

Mr. Epler went to Lake Charles as a winter visitor about ten years ago. Some of his summers being spent here in Jacksonville.

A Fine Career.

Mr. William Epler was a brother of the late Judge Cyrus Epler, of this city, and they were the sons of John Epler, of Cass county, Illinois. The Eplers of the various clans have had so much to do with Jacksonville and Morgan county that they were very well known to all our older people in a professional, business and political way, both James M. Epler, cousin of William Epler, and Judge Cyrus, having been members of our legislature.

William Epler was a native of the state of Indiana, altho a goodly part of his life was spent in this neighborhood.

He attended Illinois College altho not being a graduate, and was a member of Sigma Pi society as was Judge Cyrus.

William Epler was a great traveller in this country, aside from his professional work in the Far West. He visited much of the South, and spent much time studying its various towns or cities. He was naturally a student, and was not content merely to take a cursory glance at places visited, as so many tourists do. His student habit may

have been one great reason for his lifelong interest in Illinois College. After leaving "the Hill" he was always coming to Commencements and other events of the institution when he could.

His Greatest Accomplishment.

His great work and honor was as making the general survey of the Pacific Railroad, west of Salt Lake City, over the deserts and through the California mountains, selecting a route for that mighty thoroughfare upon which not only the citizens of America might travel, but that should become the bearer of the commerce of the world in its shortest and most direct route between the Orient and Occident.

His was not a guess as was the voyage of Columbus, but a great delineating of a highway by which others might construct our wonderful iron way; a work of knowledge, of skill and judgment such as few men have been privileged to do. It also shows the far-reaching educational value of Jacksonville and of Illinois College in developing the great things of the world.

The Influence of Jacksonville.

It is not out of the way, in this connection to speak of that other young man whom Jacksonville started on his career of greatness, Stephen A. Douglas. Douglas wrestled the course of the Pacific railroad from the South and gave to Nebraska and Iowa and Illinois the pathway of world conveyance and travel.

John M. Ellis builded far greater than he knew, when he bought the future home of Illinois College.

An Unusual Honor.

Mr. Epler had an interesting experience, a few years ago in his old age.

He went out to Carson City, Nevada; and, while there visited the state capital, and found that he was the last survivor of those who had formed the State Constitution, as a member of the "Con Con" as we have seen so much of lately.

The lady in charge of archives spread the news of his presence in the building, and its officers came to see him. The State Supreme Court was in session, and it adjourned that its members might meet and do honor to the last of the builders of the instrument under which their commonwealth had found statehood and social order.

In religious matters Mr. Epler was a Methodist, and socially he was a gentleman whom it was a pleasure to meet and to know. And he was a man of fine personal appearance.

FORDS RUN 34 MILES ON GALLON GASOLINE

Start Easy In Coldest Weather—Other Cars Show Proportionate Saving.

A new carburetor which cuts down gasoline consumption of any motor and reduces gasoline bills from one-third to one-half is the proud achievement of the Air-Friction Carburetor Co., 1010 Madison Street, Dayton, Ohio. This remarkable invention not only increases the power of motors from 30 to 50 per cent, but enables every one to run slow on high gear. It also makes it easy to start a Ford or any other car in the coldest weather. You can use the very cheapest grade of gasoline or half gasoline and half kerosene and still get more power and more mileage than you now get from the highest test gasoline. All Ford owners can get as high as thirty-four miles to a gallon of gasoline. So sure are the manufacturers of the immense saving that they offer to send it on thirty days' trial to every car owner. As it can be put on or taken off in a few minutes by anyone, all readers of this paper who want to try it should send their name, address and make of car to the manufacturers at once. They also want local agents, to whom they offer exceptionally large profits. Write them today. (adv.)

NEW REGULATIONS FOR MANUFACTURERS

Collector of Revenue Calls Attention to Changes Made By Last Revenue Act.

With the repeal of the Revenue Act of 1921 of the so-called "luxury tax" on articles of men's and women's wearing apparel and other changes in tax legislation, the Bureau of Internal Revenue has issued new regulations (47 and 48) relating respectively to the excise tax on sales by the manufacturer of certain articles—automobiles and accessories, cameras, candy, fire arms, cigar and cigarette holders, liveries, hunting garments, carpets, rugs, trunks, etc., and the excise tax on works of art and jewelry.

The principal changes in the latter taxes are that the tax on works of art is reduced 10 to 5 percent and that the tax on jewelry and similar articles which remains at 5 percent no longer includes gold or silver ornamental glasses and spectacles. The tax on works of art attaches on all sales except the original sale by the artist, a sale to an educational institution or public art museum and sales by dealers for resale.

While the tax on musical instruments has been repealed, certain instruments such as cornets, clarinets, etc., if made of or ornamented with silver or other precious metal are taxable.

Fountain pens equipped with gold pen points are also taxable. Monthly returns and payments of the tax on works of art and jewelry are required of the vendor.

Section 904 of the Revenue Act of 1921, which in the revenue act of 1918 included the tax on certain articles of wearing apparel, provides only for a tax of 5 percent of the amount paid for the following articles in excess of the following prices: Carpets, \$4.50 a square yard; rugs \$6 a square yard; trunks, \$35 each; valises, traveling bags, suit cases, hat boxes used by travelers and fitted toilet cases, \$25 each; purses, pocket books, shopping and hand bags, \$5 each; portable lighting fixtures, lamps of all kinds and lamp shades, \$10 each; and fans \$1 each. The tax is not payable by the purchaser, but by the manufacturer, producer or importer, who are required to make monthly returns and payment. Copies of regulations 47 and 48 may be had on personal application at the office of Collector of Internal Revenue, W. W. Schwaner, Springfield, Ill., or at the home office in Jacksonville.

Better Clothes at Less Cost

Many men once thought that the best custom made clothes were the best clothes to buy.

Lately these very same men found that certain clothes fit as well, are styled better, are made of the same fine fabrics and are hand tailored—but cost about half, because they are made ready-to-put-on—

They are L System Clothes

We guarantee the new Spring super-models here now on display to give super-satisfaction in every way. And all without the time and trouble of try-ons. New Sport models—in new Scotch tweeds.

Accustom yourself to L System Clothes—high as the better custom-mades in quality but not in price.

Good clothes are a good investment

Henry Ford Says:

"Keep the Boy in School"

Mr. Farmer!

Will your boy be able to take his place this Fall, in school or college, along with his mates and take part in or witness the exercises that go, along with hard study, to make the red-blooded, energetic, ambitious men who will run this country a few years hence?

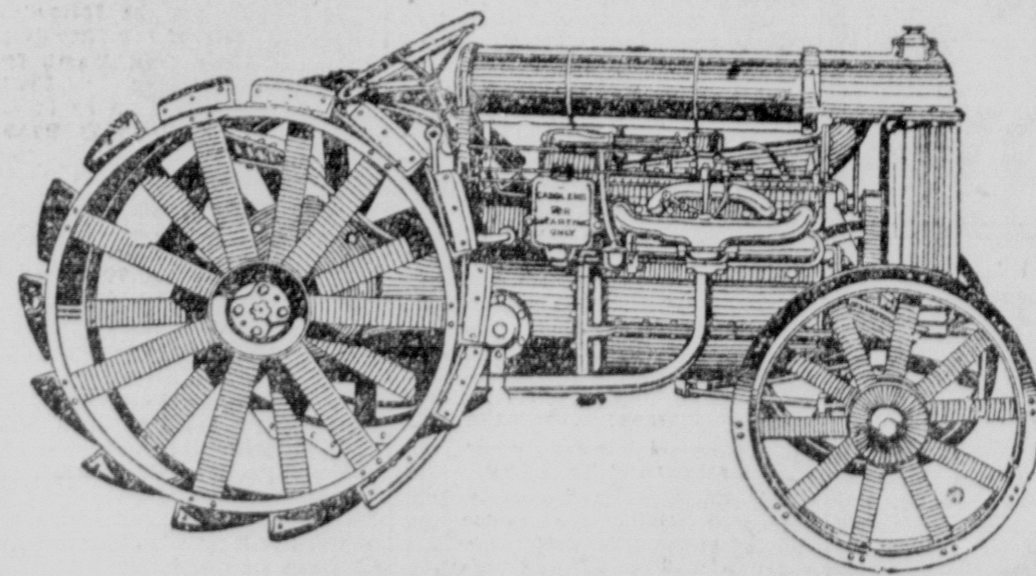

Was he entered on time last fall?

Was he entered on time this spring?

Dan Moy's Experience-He Bought a Fordson

Dan Moy operates a farm out on the State Road, about two miles from Jacksonville. Dan has a son named Edward who is an all around average American boy, as ambitious as his father is ambitious for him. He wanted his boy in school and yet he needed his assistance at home. What did he do?

Mr. Moy bought a Fordson tractor and turned it over to Edward who, with speed, ease and pleasure, plowed the wheat ground, disked and harrowed it, and got his fall work done in first class shape, in plenty of time to enter high school when it opened. What will you do?

A Fordson Tractor's Manifold Uses

On thousands of farms today the Fordson tractor is taking care of every power job. It is taking the drudgery out of farm work and solving the labor problem for the farmer. Power farming with the Fordson reduces the cost about one-half over doing the same work with horses, and saves from a third to a half of the farmer's time. What machinery is doing every day for the factories the Fordson tractor is accomplishing on the farm—It

A New Optical Shop

Having severed my connection with Russell & Thompson, I have opened an optical shop in the Scott Bldg. on State St., where I will examine eyes free of charge. I respectfully solicit a share of the patronage of the people of Jacksonville and vicinity and hope to merit their support.

If you need glasses you need them NOW. To put off wearing them simply aggravates and frequently causes eye-strain that impairs the entire nervous system.

INCOME TAX FACTS

Heavy penalties are provided by the revenue act of 1921 for failure or "willful refusal" to make a required income tax return and pay at least one-fourth of the tax on time—on or before March 15 if the return is filed on a calendar year basis. If a taxpayer makes his return on the basis of a fiscal year it should be filed on or before the 15th day of the third month following the close of the fiscal year.

For failure to file a return on time a taxpayer becomes liable to a penalty of not more than \$1,000 and a further penalty of 25 percent of the amount of the tax, unless he later files a return and it is satisfactorily shown that the delinquency was due to a reasonable cause and not to willful neglect. For willful refusal to make a return and pay the tax on time a taxpayer becomes subject to a fine of not more than \$10,000 or one year's imprisonment, or both, together with the costs of prosecution, and a penalty of 25 percent of the amount of the tax. If any installment is not paid when due the whole amount of the tax unpaid becomes due and payable upon notice and demand by the collector, and if not paid within 10 days after such demand a 5 percent penalty accrues with interest at the rate of 1 percent a month until paid.

When Penalty Attaches. When a return is made in good faith and an understatement of the amount of the tax therein is due to no fault of the taxpayer, no penalty attaches, but interest attaches to the amount of the deficiency at the rate of one-half of 1 percent per month. If the understatement is due to negligence or to intentional disregard of authorized rules and regulations with knowledge thereof, but without intent to defraud, there is to be added 5 percent of the total amount of the deficiency plus interest at the rate of 1 percent a month from the time the tax was due. If the understatement is false with intent to evade the tax the penalty is a fine of not more than \$10,000 or one year's imprisonment, or both, together with the costs of prosecution, and 50 percent of the total amount of the deficiency which is added by assessment to the tax.

If for any reason a return can not be filed by the due date, application may be made to the collector of internal revenue of the district in which the taxpayer lives or has his principal place of business, setting forth the facts as to the taxpayer's inability to file on time. Upon showing a reasonable excuse, such as absence, illness, etc., the collector may grant an extension of time not to exceed 30 days in which to file the return. If further extension of time is required, application must be made to the Commissioner of Internal Revenue, the collector having authority to grant only an extension not to exceed 30 days.

The commissioner may grant an extension on a reasonable cause shown, not exceeding six months. This six months' limitation, however, is not applicable to taxpayers who are abroad. When the payment of a quarterly installment of a taxpayer there is added as part of such installment, until paid interest at the rate of one-half of 1 percent a month from the date the installment would have been due if no extension had been granted.

Receipts Given on Request. Collectors, if request is made, are required to give to taxpayers

written or printed receipts for income, excess-profits and war-profits taxes, stating the amount paid and the particular account for which such payment was made. Payments may be made either at the offices of collectors of internal revenue or branch offices, either in cash or by money order or check. Checks and money orders should be made out to the collector of internal revenue in the city in which the collector's office is located. For example: "Collector of Internal Revenue, Baltimore, Md." The Bureau of Internal Revenue advises that payments be made either by check or money order, as this method saves a trip to the collector's office and insures avoidance of congestion during the closing days of the tax filing period. If a check received by the collector is not paid by the bank upon which it is drawn, the person by whom it was tendered becomes liable for the payment of the tax and all legal penalties and assessments which apply if the check had not been tendered.

Dwight Seymour of Murrayville was among business callers in the city Tuesday.

SAY, LISTEN! Better times are not "on the way"—they are here now, if you'll only just think so for a little while. In times like these, when the banks are bulging with coin, and there's plenty of food and clothing in the country, and only the average amount of sickness, "Tough Times," "Slow Times," "Everything Stagnant Times," are just a state of mind—an unhealthy state, too. If we'll all "snap out of it" and go ahead and spend our dollars as we did when our state of mind said "Normal Times," we'll have what we want, and the others will get what they want, because dollars will be circulating freely once more. GREATER STRENGTH Fewer Spoonfuls

The value of baking powder is based on its leavening strength. You can't judge it by the size of the can—or by the amount you get for your money. You must estimate it by the amount of baking powder used in each baking and the results you get.

CALUMET

is the greatest value ever offered in Baking Powder—it has greater raising "force"—it goes farther than many of the other brands. You use only a rounded or heaping teaspoonful where many others call for two teaspoonfuls or more.

But Baking Powder is not all you'll save when using Calumet. You save baking materials. Calumet never fails. The last level teaspoonful is as powerful as the first. Calumet is perfectly manufactured—keeps perfectly—and is moderate in price.

You save when you buy it. You save when you use it.

One trial will satisfy you of these facts—and demonstrate beyond doubt that "Calumet spells economy."

Your grocer sells it on a guarantee of money back if you are not pleased with results.

Calumet contains only such ingredients as have been approved officially by the U. S. Food Authorities.

ADmits THAT MANY OF HIS REPORTS ON RADICALS UNTRUE

Bailin Weakens Under Cross Examination Yesterday

(By The Associated Press)
CHICAGO, Feb. 14.—Albert Bailin, alias Albert Banalov, confessed spy and agent provocateur, admitted today under cross examination by O. L. Smith, assistant attorney general of Wisconsin, that many of his reports while an agent of the Burns and Thiel Detective Agencies were lies.

Balanow in a deposition being taken by Frank P. Walsh, attorney for 22 alleged Communists facing trial in Michigan, had pictured the Communist and Communist-Labor parties and the I. W. W. organization as being virtually controlled by the two detective agencies and operated as side lines for extracting money from banking and business agencies. He charged that he and other agents provocateur of the two detective agencies organized labor unions and radical organizations and directed their activity in order that the detectives might arrest deluded radicals who followed their lead.

As he painted the picture of detective activities today, radical meetings consisted largely of private detectives who at times were so thick, he said, that they reported on each other.

His admission that many of his reports were lies came when his attorney General Smith questioned him about a report he sent from Milwaukee detailing an alleged meeting with one Lechovetsky, supposed to be a dangerous representative of the soviet government.

The examination developed he had furnished the report to John L. Garrity, then chief of police of Chicago and the Thiel Agency, and collected salary and expenses from both, and Mr. Smith also attempted to show that the same report was sold to the Burns Agency and expenses collected again, but this the witness denied.

"You knew it was a lie when you wrote that to Chief Garrity, didn't you?" Mr. Smith asked Balanow.

"Yes," the witness replied, "but Michael Flannigan, vice president of the Thiel Agency told me to write it."

Balanow waving his arms halted the hearing while he delivered a long speech in which he declared Allen O. Meyers of the Burns Agency and T. J. Cooney of the Thiel organization had threatened to expose him to the radical organizations as a paid informer unless he followed orders.

The Milwaukee report which the witness admitted was false concerned the Wall street bomb explosion. On direct examination he testified that Flannigan of the Thiel Agency told him the day after the explosion on Sept. 6, 1920, to go to a Milwaukee hotel and register at "A. B. Rosenberg," and there write a report alleging he had not a radical named "Lechovetsky," a soviet representative and that Lechovetsky had told him that some 30 Russian leaders had recently held two meetings and planned various bomb explosions, assassinations and armed revolt.

Flannigan, he swore, told him to mail a copy of the report to Chief of Police Garrity.

Flannigan also gave him a list of alleged communist party members, he said, and told him to mail it to Garrity who would have it photographed and then mail it on to Isaac E. Ferguson of the Workers' Defense committee, so that Ferguson's office could be raided and the list would be found there as evidence to be used in convicting him.

On cross examination Mr. Smith produced a copy of the report, taken from the Burns' files and Balanow admitted selling it to Burns some time later.

COLD WEATHER WILL HOLD ITS OWN, THE WEATHER MAN SAYS

Will Not Get Colder But May Continue for Two Days

(By The Associated Press)
CHICAGO, Feb. 14.—The cold wave that has spread throughout the central west and northwest since last night will not become much more severe, but will continue to hold its own for another day and for possibly two days, the weather bureau announced tonight.

Severe cold may be expected throughout this district tomorrow, it was indicated, but the strong winds of last night and today were expected to be less severe. Little moderation was indicated before Friday.

The crest of the cold wave continues to abide in the northwest Professor Henry J. Cox, Chicago weather forecaster said tonight. He added that while the cold wave was passing eastward it was diminishing in intensity.

The far south, he said, seems to be about the only portion of the country exempt from winter's blast at present.

Chicago, which was to have had a temperature ten degrees below zero tonight, got some comfort out of the modified sentence of five below which was expected to be the minimum. The zero line tonight was expected to pass on an almost east and west line along the northern border of Illinois. Two deaths were reported here today from the cold. The severe cold in the northwest resulted in stalled trains, transportation tieup and the sinking of a railroad ferry boat at Frankfort, Mich.

HOWAT GOES TO GIVE HIMSELF UP TO AUTHORITIES
Says it is Outrage to Make Him Give Bond for \$5,000

(By The Associated Press)
PITTSBURGH, Kans., Feb. 14.—Alexander Howat, deceased president of the Kansas Mine Workers' union left Pittsburgh tonight by motor car where he will give himself up voluntarily to Sheriff Turkington on a commitment issued last week by District Judge Woolley, following receipt of a mandate from the Kansas supreme court affirming the decision of former District Judge Curran in finding Howat \$200 and requiring of him a \$5,000 bond to call no more strikes. Curran's decision was given April 8, 1921, and followed the calling of a strike by Howat March 21, 1920 at the Patton steam shovel mine near here. The court ruled that Howat had violated the anti-strike injunction issued by Curran.

"It is nothing short of an outrage to require of me a \$5000 bond not to call strikes," Howat said before leaving Pittsburgh, when I have no power or authority to call a strike even if I am no longer a member of the Kansas union or an official there of any more than any other citizen of Kansas."

The former district president will go to jail having formally declined to comply with the provisions of the commitment.

SENATE FAILED TO ARRIVE AT VOTE ON BRITISH DEBT BILL

Call off Night Session Also May Take Final Vote Friday

(By The Associated Press)
WASHINGTON, Feb. 14.—The senate failed today to reach a vote on the British debt funding bill, as had been hoped by administration leaders and also called off the proposed night session but negotiations providing for a final vote Friday made material headway.

Formal proposals for a vote Friday were brought before the senate late in the day but a decision went over until tomorrow. Democratic opposition compelled the Republican leaders to cancel tonight's proposed session but Senator Robinson, Democrat, Arkansas, told the senate that tomorrow there was prospects for an agreement to vote on Friday.

Acceptance today by Republican leaders of the Robinson amendment to limit the debt funding legislation to the agreed-upon with Great Britain and provide for accept of fundings with other debtor nations by congress instead of the president as provided in the measure as passed by house, smoothed the way for the scheduled passage of the bill on Friday.

After private conferences Senator Smoot, Republican, Utah in charge of the bill, today proposed an agreement to limit all speeches to five minutes after 2 o'clock tomorrow. This was objected to by Senator Robinson who said that while there was no disposition so far as he knew to delay action, several senators had planned to speak at length. He said there was not the slightest justification for a night session and after considerable sparring the counter proposition for a vote on Friday developed and went over for action until tomorrow.

In today's debate speeches were made by both party leaders, Senators Lodge and Underwood strongly urging adoption of the British debt agreement. Senator Underwood made his support of the bill contingent upon adoption of the Robinson amendment. Both leaders emphasized the effect upon world stabilization the agreement would have. Senator Randell, Democrat, Louisiana, also urged passage of the bill.

Speeches criticizing the agreement were made by Senators Borah, Republican, Idaho; Reed, Democrat, Missouri, and Ladd, Non-Partisan Republican North Dakota.

Senator Borah indicated he would vote for the bill.

FINE POINT OF JURISDICTION
(By The Associated Press)
SPRINGFIELD, Ill., Feb. 14.—A fine point of jurisdiction between the States of Illinois and Kentucky involving an island in the Ohio river, arose today when Governor Small received a requisition from the governor of Kentucky asking for extradition of Albert Barnett, former sheriff of Gallatin county, Carl Martin and William Condit, former deputy sheriffs.

A THOUGHT
Better is a little with right-
conscience than great revenues
without right.—Prov. 16-8.
Fortify yourself with modera-
tion; for this is an impregnable
fortress.—Epictetus.

A local club proposes to under-
take the project of planting trees
along the hard roads in Morgan
county. This is an enterprise very
much worth while if the plans can
be worked out in a way satisfac-
tory to both the public and those
who own the land adjacent to the
highways.

It is proposed to secure a Y. M.
C. A. secretary and to have the
work of that organization move
along steadily. It is quietly until
the time comes for the erection of a
new building. The Y. M. C. A.
has a definite place and work in
the community and it is to be
hoped that the enterprise may be
established on a business basis.
Well established and well con-
ducted, such an institution will
find ready support here in Jack-
sonville.

As recently noted, the Wabasha
roadway proposes to improve the
side walks which cross the rails
and also to make the betterments
in vehicle crossings. The promise
of this improvement program
came after numerous requests
from the city.

Thus another instance is fur-
nished of the evident desire of
the railroads to work in co-operative
way with the people of Jackson-
ville. It is difficult to force rail-
road managements to take desir-
able action, but they are amenable

BERTON BRALEY'S DAILY POEM
THE PAST
By Berton Braley
"GIRLS ain't the same as the girls I knew."
The dowager says, and sighs.
"Those old-time maidens would never do
A thing that would cause surprise."
But she failed to recall, in a large degree,
Some things which she saw occur—
Girls ain't the same as they used to be,
And they never were!
"MEN ain't the same as the men of old."
The old man said with a scowl,
But he didn't know that the cave man bold,
Had put up a similar howl,
And they both were right in their sad decree,
To which we can still demur.
With, "Men ain't at all what they used to be,
And they never were!"
THE past is over a golden time,
When it's many a year away,
And the folks who're pretty well past their prime
Are always aghast at Today!
And they're right, of course, as you plainly see,
In the judgments that they aver,
But times ain't at all what they used to be,
And they never were!

THURSDAY
Jesus a Preacher
"Jesus camepreaching
the Gospel of God." Mark 1:14.
"Christian faith is belief in
Jesus Christ."
MEDITATION: Jesus meant
more than intellectual assent
went he preached that men should
believe the Gospel. He said "re-
pent and believe." Does my be-
lief in him mean any less than
complete spiritual recreation?
HYMN:
Lord, speak to me, that I may
speak
In living echoes of thy tone;
As thou hast sought, so let me
seek
Thy erring children lost and
lone.
PRAYER: Eternal God, who
hast neither dawn nor evening,
yet sends us alternate moroses
of the darkness and the day, there
is no light but thine, without or
within. As thou liftest the curtain
of night from our bodies,
take also the veil from all our
hearts. Rise with thy morning
apex souls quicken all our labor
and our prayer; let the noontide
of thy grace and peace remain.
May we walk, while it is yet day,
in the steps of him, who with few-
est hours, finished thy divine
work. Amen.

CIRCLE AT THE GRAND TONIGHT

For the local theatregoer, the Circle offers an opportunity to see a performance such as "Circle," which the Selyns offer at the Grand theatre tonight.

Maugham's comedy has proven a sensation in New York, London and Paris, will be seen here by an all-star cast with Wilton Lackaye, Henry Ky, Amelia Bingham, Charles Walker, Norman Hackett, strong supporting company very patient, persistent and on by disappointed playgoers find his compensation and

reward by seeing this real comedy presented by a cast par excellence which should be received by them as a delightful refreshment.

In his deliciously satirical comedy Mr. Maugham introduces an ill-assorted couple, Arnold Champion-Cheney, M. P., and his wife Elizabeth. The young M. P. is tense, nervy, narrow, precise, orderly to a vice and conceited to a crime. Elizabeth is a healthy young beauty with longings for a freer life.

Morgan County's Centenary

County Established January 31, 1823
Some Pioneer History

FROM MANUSCRIPTS OF FRANK J. HEINL

In compiling this story of a century old errors may have crept in and important facts may have been omitted. Suggestions and corrections will be acceptable.

Exeter. Seymour Kellogg remained in the Deaton settlement but a short time and then again followed the Mauvalsterre in its westward course and located near the present Exeter, in which neighborhood he and the Charles Collins, who came to the county with him in 1819, and who married his daughter, Adeline, sometime prior to March 18, 1826, acquired lands.

Seymour Kellogg was residing on Plum creek not far from Exeter in 1823 or 1824, according to the constitution of the Morgan County society, which was organized to assist in preventing the legalization of slavery by the state of Illinois, and whose constitution provided that certain meetings of the society be held "at the house of Col. Kellogg on Plum creek."

The constitution of this society was signed by a large number of citizens including Seymour and Eliza Kellogg.

After Eliza Kellogg sold his Gravel Springs farm he acquired a farm just west of the Campbell cemetery on the county line west of the Point church and there made his home.

Settlers in 1820. In the spring and summer of 1820 settlers located in several localities near the present Jacksonville. Isaac Fort Roe and Jeddiah Webster were located in Diamond Grove, Isaac Reeve and his family of

since had located in 1820 near Sandy creek, about a mile south of Diamond Grove on lands later known as the Deeds farm somewhere between the eighty-acre tract now owned by the Jacksonville state hospital and the present Shanahan school. Around the blacksmith shop erected and operated by Mr. Reeve, according to the Rev. N. P. Heath, grew up a little town which became headquarters for the county. Near it passed the main highway leading from the military tract to Edwardsville. Within a year or two after Mr. Roe came to Diamond Grove he was joined there by Stephen Spencer, Joseph Cline, who ran a little grocery, Joseph Coddington, Elijah Williams, Thomas Wiswell, William Verry, Dr. Langworthy, Steven Nash, James B. Crain and others.

Dr. George Cadwell. Late in 1820 or early in 1821, Dr. George Cadwell and his family came from Edwardsville and located just east of Olmstead's, now called Allison's Mound. The journey was made in flatboats propelled by poles and pulling the overhanging boughs up the Mississippi and Illinois rivers to Naples and then by wagon. The family built its cabin on the second forty-acre tract west of the forty acres whereon the Point church and school are now located, which later came to be known as the Edward Harvey place. Dr. Cadwell later entered this forty-acre tract and two hundred acres north and south of it. The little creek crossing these lands came to be known as Cadwell branch.

James G. Swinnerton about the same time located on the eighty-acre tract between Dr. Cadwell's home and the eighty-acre tract at the north end of which is the Point church and school house, or south of the church. Dr. Cadwell was born in 1773 at Wethersfield, Conn., and married a daughter of the celebrated Mathew Lyon, who had a tempestuous career in congress, was jailed while a member of congress for violation of the sedition act and finally driven from Vermont. Mr. Lyon and Dr. Cadwell removed to Kentucky where Lyon engaged in the slave trade and was four times elected to congress. Dr. Cadwell disgusted with slavery in 1802 removed to Illinois and after a time located at Edwardsville where after filling several local offices he was elected to the state senate. In the senate he was an active opponent to slavery. He enjoyed the unique distinction of being a state senator from three counties, Madison, Greene and Morgan, while residing in the same home in Morgan county.

Quincy, Morgan County. When he located near Olmstead's Mound he laid off a town which he named Quincy and expected to secure the location of the county seat upon it. Dr. Cadwell was the first physician in this county and enjoyed an extensive practice over a wide field. He built the first frame house in Morgan county and its roof was blown off in 1823.

Dr. Cadwell died August 1, 1826, at the age of 52 years and was buried on the farm he entered. He left surviving him his widow and six minor daughters. The late Richard W. Mills was a grandson of Dr. Cadwell and the Rudisills at Arcadia and others in the county are descendants of his.

HEARD ADDRESS BY RADIO.

Mr. and Mrs. A. R. Taylor of South Kosciusko street have recently installed a radio outfit in their home and are among the most enthusiastic radio fans of the city. Last night they were interested in hearing an address by Rudolph Valentino, the movie star, who discussed "High and Low Standards in Moving Pictures." Mr. Valentino is spending a few days in St. Louis and his address was broadcasted by the Post Dispatch station, which is KSD.

ALL DAY MEETING AT WHITE HALL TODAY

Farm Bureau of Greene County to Make Special Effort to Get New Members Today—Other White Hall News.

White Hall, Feb. 14.—Tomorrow will be Farmers' Day in White Hall, and efforts will be put forth to regain delinquent and add new members to the Greene County Farm Bureau in a day of conferences and instruction that will forcibly remind the agriculturists of their duty of affiliation with the organization that is getting the farming business in first class condition. Every farmer, too, desires to contribute his share to this consummation.

The morning session will be held in the city hall, and then the gathering will repair to the M. E. church for dinner, during which a program of music will be carried out under the direction of Mr. and Mrs. H. V. Littleton. V. Vaniman of Virden, representing the extension department of the Illinois Agricultural association, will conduct a school of instruction, it being the plan to remain at the church for the afternoon session. Norman Davis, chairman of the county committee having the campaign in charge, has completed arrangements for a gathering that will be creditable to the farm interests in showing the determination of the farmers to maintain the new order of things.

At night an illustrated lecture will be held in the church, depicting the 1922 Passion Play at Oberammergau, Bavaria. It is generally known that this world-famous production is presented once in ten years.

Plan Park Improvements

The commissioners of Whiteside park held a session Tuesday night to plan for park improvements. The members called into consultation A. H. Wilkinson, who outlined a plan of beautification that is very agreeably considered. Mr. Wilkinson has since consulted the Buckingham plan for the memorial arch at the northeast corner entrance, and the specifications of the work being drawn up by Mr. Wilkinson has the early erection of the memorial in view.

The park commission consists of Mayor Rodhouse, Aldermen Gehring, Whiteside and Winters and they express determination to carry out the project as early as possible since the erection of the library will permit the beautification to proceed in an intelligent and permanent manner. The commission feels that it is fortunate that the services of Mr. Wilkinson are available, he having a working agreement with his father, Henley Wilkinson, the veteran horticulturist, that permits this landscape artist to carry on his line of business with availability of such portion of the White Hall Nursery as he requires.

Former Resident Dies

Word comes from Kansas City of the death of Mrs. John E. Newland, formerly Miss Gertie Blair of White Hall. She was a daughter of the late William Blair, who died about twelve years ago while the family was residing at Kane, and our subject soon thereafter became the wife of Mr. Newland at Springfield. They located at Kansas City eight years ago, and her mother has made her home with the deceased since the death of Mr. Blair. The latter was a veteran of the Civil War, member of Company G, 91st Illinois Infantry.

The remains will be brought to White Hall Thursday evening for funeral and burial, and services will be held in the Christian church at 2 o'clock Friday afternoon, conducted by the pastor, Rev. Charles M. Ross and burial will be in the White Hall cemetery.

Reaches Ripe Old Age

The venerable J. S. Baker is not the oldest person in White Hall, but he manifests a chieftain over his 77 years that finds him in good physical condition, accentuated on the occasion of his anniversary last Sunday by a family gathering at his home on Centennial street that was featured by a great feast. Mr. Baker was a member of Company I, 108th Illinois Infantry, in the Civil War. It was in 1868 that he became a benedict, and he and his life companion have since happily sailed the seas of matrimony, a period of fifty-five years. Their children contribute to this happy state by loyalty and reverence.

Mail Carrier Injured

C. E. Kemp, a city mail carrier, is able to get about his delivery district in the eastern part of the city today, following an accident at noon Tuesday that would have had almost fatal results had it not been for the heavy cap and regulation badge in front. He was returning to town from his home on West Bridgeport street with his young son riding the front end of the bicycle, and the boy got his heel caught in the wheel, pitching both riders forward. The boy fell to one side, escaping with only minor scratches, but Mr. Kemp was thrown violently on his head, and his nose and mouth were bleeding as he was moved into the home of Jesse Harrison on Carr street in an unconscious condition, where first aid was administered, and he was soon able to proceed on his way.

Greenville, Pa.—"I took your medicine through the Change of Life and it did wonders for me. I was down in bed when I started to take it and weighed 95 pounds. I had hot flashes and was so nervous and weak that everything would get black and I could not see. I would sit and cry and did not know what I was crying for. Since I have been taking Lydia E. Pinkham's Vegetable Compound I feel younger than I did ten years ago, and my friends all tell me I look younger, and I owe it all to the Vegetable Compound. NEW LEAGUE IS CHIEF TOPIC

NEW YORK, Feb. 14.—Baseball's chief topic of discussion today the proposed Continental of inter-allied League, reported to be in process of organization in eight eastern cities of the United States and Canada and to have major league approval, it's not actual backing developed a diversity of opinion in diamond circles here and throughout the country.

An air of mystery surrounded the actual organizers of the project and a majority of baseball men particularly in the face of denials issued by high officials of the game were skeptical in their views of a new league's feasibility. One or two significant developments on the other hand gave some further color to the proposition. Chief among these developments was an informal conference held by Pres. Hydlor of the National League with most of the club owners of the senior circuit who remained in the city after yesterday's schedule meeting.

Mr. Heydlor declined to divulge details of the meeting but it was said that Barney Dreyfuss, president of the Pittsburgh club disclosed the fact that he had been approached by sponsors for the new league and asked to join Montreal interests in formulating a club in Montreal.

That similar interests had made overtures to club owners in Washington and Brooklyn two other cities mentioned as part of the new circuit also was indicated but their identity remained unrevealed.

The meet will continue three days. The events tomorrow will be 440 yards and one mile races with exhibition and fancy skating contests.

TALKED OF Y. M. C. A. AND THE FUTURE

Directors Will Secure Secretary and Look Forward to New Building a Year or Two Hence.

A conference with reference to the future of the Y. M. C. A. in Jacksonville was held at the public library Wednesday night. About twenty-five citizens representing various interests met with the directors for an informal discussion of the various phases of the subject, the conference lasting for nearly three hours.

H. J. Rodgers presided and A. L. Mayer of Decatur, district secretary of the Y. M. C. A., had active part in the affairs of the session. After a full discussion by an unanimous vote the directors were requested to secure as soon as possible the services of a competent secretary. The thought is to secure a secretary who will carry on the activities of the association with the facilities at hand, but with the special purpose of preparing the public mind for a campaign for a modern building, to be erected in the course of the next year or two as conditions may warrant.

Every man present was asked to express his views and nearly all present declared their belief in the need for association work. There were some differing views as to just the time for a campaign for funds to make a building possible. There were also varying views with reference to the size of the building sufficient to meet with local needs.

Mr. Mayer made it plain that it will not be an easy matter to find a secretary of just the kind needed in this situation, but said that the state organization would use its best efforts to secure such a man as speedily as possible.

Hostetter, assisted by Rev. H. M. Ingram. The house was completely filled with relatives and friends of Mr. Heaton, who was one of the long time and highly respected residents of the community.

Music for the occasion was furnished by the Messrs Duncan of White Hall. The beautiful floral tributes were in charge of Mrs. Glenn Funk, Mrs. Clarence Tucker, Mrs. E. O. Hess, Mrs. Frank Tedford, Miss Lulu Sloan, Miss Emily McCracken and Miss Golden Rochester.

The pall bearers were George Summers, Gay Brown, William Rees, Charles Thady, Charles Heaton and E. O. Hess.

Among those attending the funeral from a distance were Rev. A. B. Cadwell, of Manchester, Iowa; Rev. W. L. Hostetter, of Newton, Ill.; George Heaton of Cheyenne Wyo.; Mrs. Emma Fenstermaker, and son Ole, Mrs. William Bartlett, Mr. and Mrs. F. L. Ledford and Dr. and Mrs. P. O. Hess, all of Jacksonville; Mrs. Clarence Tucker, of Carrollton; Charles Cryder and J. O. Raines of White Hall.

Obituary Sketch.

Henry Alexander Heaton, son of Alexander and Lucy Heaton, was born in Manchester, Ill., April 3, 1858, and passed from this life Sunday evening, February 11, 1923, in the sixty-fifth year of his age.

He was united in marriage with Miss Clara A. Alred in Jacksonville, September 22, 1887, by Rev. Joel Goodrich. Three sons were born to this union: Claude R., whose home is in Manchester; Roy, who lived but four months and Henry Earl, who lived but a year and eighteen months.

Mrs. Heaton passed away December 18, 1894. Miss Eva Gunn of Jacksonville, a cousin of Mrs. Heaton, came into the house to care for Mrs. Heaton and little son in their illness. After their deaths, she remained to preserve a home for Mr. Heaton and Claude, and remained with Mr. Heaton until the end of his life came.

Beside the son, Claude Heaton and family, there survive two brothers, George, of Cheyenne Wyo., and William, of Manchester. Mr. Heaton lived his entire life in this community and was one of the best known residents. He was interested in the schools, serving on the board of directors for a quarter of a century. All good moral and financial support.

No call of need was unheeded by him. He was every ready to help in time of distress, and in his death the community has lost a good friend and citizen.

News Notes.

A ple Valentine social was given in the school building Wednesday evening by the grade pupils. The attendance was large and a good time enjoyed by all. There was a splendid musical program given by Mrs. Arch Robinson, after which the guests were entertained and fed at different booths. There were sandwich, pie, cake, coffee and candy booths. In addition to valentine, fortune telling and valentine postoffice booths.

The school rooms were prettily decorated for the event in keeping with the valentine season. Dr. T. D. Fawcette received the large cake which was offered as a special prize.

Paul, the little son of Mr. and Mrs. Leo Rochester is ill, threatened with pneumonia.

A surprise party was given recently at the home of Mr. and Mrs. Joseph Curtis west of town. The event was in honor of the birthday of Mr. Curtis and he was taken altogether by surprise when a number of his neighbors came and announced they were going to help him celebrate the important anniversary. The self-invited guests brought ice cream and cake with them and the evening was very pleasantly spent.

The guests were Mr. and Mrs. Clare McQuown and son, Paul, Mr. and Mrs. Glenn Funk, Mr. and Mrs. J. C. Robinson, Mr. and Mrs. Emory Funk and son, Floyd Mr. and Mrs. James Garvin and daughter, Mabel.

Market Report

By The Associated Press

ICE COVERS FIELDS; WHEAT GOES UP

CHICAGO, Feb. 14.—With hundreds of miles of wheat fields reported as covered with ice the wheat market rose today to the highest prices yet attained this season by the new crop deliveries. July and September closing quotations were unsettled at 1c to 1 1/2c net advance. May \$1.23 1/2 to \$1.23 1/2 and July \$1.17 to \$1.17 1/2. Corn gained 1/4c to 1/2c, oats 1/4c to 1/2c and provisions a shade to 2 1/2c.

Advices at hand were to the effect that over the larger part of the wheat belt Indiana to Kansas and Nebraska crop damage from extreme low temperatures was being intensified by ice which if continued would cause smothering of plant life. The upward course of the market was temporarily checked due to an increase of more than 1,000,000 bushels in the United States visible supply total. Persistent buying continued and new advances took place accelerated because of disquieting reports current about affairs in the Near East.

Profit-taking sales in the last part of the day led to a reaction from the top prices reached by wheat. This was partly the result of absence of confirmation for talk about bullish Near East developments. No decided weakness, though, became apparent and the bear side of the market remained under the handicap of forecasts that low temperatures were to be the rule until Saturday at least. May delivery which represents wheat already on hand as distinguished from the 1923 crop was inclined to lag through the day. Corn and oats reflected the action of wheat. A big export business in corn was said to be underway.

Provisions were higher in line with hogs.

PROFIT TAKING CAUSES REACTIONARY TREND

NEW YORK, Feb. 14.—Profit-taking and short selling by professional interests imparted a reactionary trend to the general list of prices in today's active stock market altho a few special issues were bid up to new high prices for the year. Liquidation was increased by higher call money rates.

Premier Bonar Law's pessimistic remarks concerning the French invasion of the Ruhr, a bad break in Cuban raw sugar futures after a strong opening, unconfirmed reports of the sinking of a French torpedo boat at Symrna and speculative belief that the recent rise in a number of issues had been overdone.

Protective factors were not entirely lacking. One of the most of these was the rise in the price of copper to 15 1/2 cents a pound the highest since October, 1920, reflecting an increased demand and a steady decrease in surplus stocks. This resulted in an active demand for copper shares before the closing Anaconda and Inspiration rising a point each and Utah 1 1/2.

The bad break in the active sugar issues was a natural sequel to the wild speculation in those shares during the past few days. South Porto Rican sugar dropped six points and Cuba cane sugar preferred 3 1/2.

Heavy selling of Baldwin which got as low as 13 1/2 and closed at 12 1/2 for a net loss of three points was attributed to speculative disappointment that the annual report showed net income from operations of only \$7.37 a share on the common stock altho this amount was brought up to over \$19 a share by other income. Standard Oil touched 117 1/2 and then snapped back to 118 1/2, where it was off 1 1/2 on the day. United States Steel closed at 117 off 1.

New York Central enjoyed a brief period of strength on reports of record January car loadings touching 982 but falling back to 98 where it was off fractionally on the day.

Money rates were firmer. Call money opened at 5 per cent and advanced to 5 1/2 where it closed. A few time loans were arranged at 4 1/2 for the shorter maturities but most bankers demanded 5 per cent for all terms. Commercial paper was moderately active with no changes in rates. No foreign exchange rates were earlier. French francs dropped nearly 12 points to 6.50 cents.

United States government bonds were firm at the opening but eased off at the close, the first 4 1/2 dropping 10 cents to \$109 and the others moving irregularly within a radius of four cents.

Shipping sales were 120,000 bushels including 50,000 bushels worked for export.

FORM NATIONAL BODY OF AUTO MECHANICS

C. M. Strawn is President of New National Association of Automotive Mechanics—To Launch Membership Campaign Soon

Articles of incorporation have been issued at Springfield for the National Association of Automotive Mechanics, an organization that is designed by its founders to benefit both the mechanic and car owner. C. M. Strawn is the president. E. J. Kunkle of Alexander, secretary-treasurer, and C. G. Wright of Springfield, vice president.

The officers of the association intend to launch immediately a campaign for members. A man must have been a mechanic for at least three years before he can become a member of the association. Membership cards will be issued, showing that the holders are duly qualified auto mechanics and have met the requirements of membership.

It is intended to build up a charter membership in Illinois of four or five hundred members and later to extend the association throughout the United States. The members are to be kept informed of the latest developments in the mechanical construction of automotive vehicles. The association has been formed for the purpose of promoting and maintaining a higher standard of efficiency among its members, and also to assure auto owners a "blue card" service. Admission will be by examination, and members will be given a blue card, the sign of their title to standing in the organization.

The officers of the organization have been at work on the project for the past three years, and only recently applied for articles of incorporation.

GAVE FINE BANQUET AT NORTHMINSTER

Special Program Planned in Honoring Sons of the Church.

Great interest and enthusiasm characterized the father and son banquet held at Northminster church Wednesday evening. It was a largely attended event and each address given was one of merit. Dr. W. E. Spoonst presided and there was special music by the orchestra from the Boy Scouts, Troop No. 4.

Miss Laura Fernandes sang a solo in a very capable way and Grace Bieber gave a recitation which was greatly enjoyed.

H. H. Vasconcellos, superintendent of the county schools, made an address in which he discussed problems of young life. The subject was approached in a way which made the address unusually interesting.

Another speaker was C. E. Schenk of Chicago, who has for years been prominent in Sunday school work. Mr. Schenk discussed the church in its relationship to young people and he laid emphasis upon the importance of various departments of church work.

A splendid supper preceded the program and the occasion will long be remembered with pleasure by Northminster people.

Mack
Lizzie B. McKee-Mack passed away at the residence 1121 South Diamond street at 2:15 o'clock Wednesday afternoon after an illness of three weeks' duration. Death was caused from acute neuritis, and she was a great sufferer but everything that could be done by a devoted family and a large number of friends was done to make her comfortable and she bore her suffering with the sweet fortitude which characterized her whole life. She was born in Bradford, Pa. June 2, 1844, and was 78 years, 8 months and 12 days old, at her death. She was united in marriage to James Hart Mack in 1866 and was preceded in death by him in 1884, leaving her with five small children. She was also preceded in death by her oldest son, Walter J. Mack, who died in January 1921, and she is survived by three sons, James B. Mack of Valley City; A. J. Mack, of Battle Creek, Mich.; Harvey W. Mack of Alton, and one daughter, Myrtle Mack-Rufus; also three grand children, Edith, Marie and Myrtle Elleen Mack and one grandson, Harold Mack Rufus; also one brother, J. W. McKee of Idaho, who has made his home with her for the past two years.

Mrs. Mack was a woman loved by all who came in contact with her for her tender sympathy and was a true mother in every way. She was tireless in her devotion to her family and was always ready to help anyone in time of trouble, and she will be greatly missed by a host of friends. Funeral arrangements will be announced later.

GAVE SUPPER AT WESTMINSTER CHURCH

Event Planned in Honor of Both Sons and Daughters.

Westminster church had a family supper Wednesday night especially for the daughters and the sons of the church. An excellent supper was served at 6:15 o'clock by a committee of which Mrs. George Tholen was the efficient chairman.

Following the supper there was the mass singing of familiar hymns and then Dr. Thomas W. Smith made a brief address, giving special emphasis to the thought of the need of loyalty to the church. It is that characteristic in members which makes for their worth and the speaker said that the church members who are found regularly in their pews contribute more largely to the success of the church than those who perhaps give more liberally in money but fail to attend services regularly.

W. J. Brady, superintendent of the Sunday school, was the next speaker and referred to some of the special problems of young people of the present day and the good results that come from a strict walking in the narrow path no matter how alluring are the temptations to occasionally wander away just a trifle.

H. P. Shafer, superintendent of the city schools, made the final address. Mr. Shafer spoke of the influence of the church upon young life and said that solving problems of today with reference to the proper training of young people would be less difficult if all of these young people came more regularly under the influence of the church.

After another song a short time was spent socially before the hour of adjournment. The table decorations were suggestive of the valentine season and in various ways the event was made memorable.

MERCHANTS PLAN FOR THE SPRING OPENING

Will Doll Business District All Up for Occasion—Local and National Colors Will be Used in Decorations

All merchants' windows in Jacksonville will be washed and polished, all boulevard lights in the city are to receive a like treatment, and where paint will add to the attractiveness of the display it will be used, and everything else that will make the city look pretty and harmonious with the artistic displays of fine merchandise that will be placed in the various show windows of Jacksonville merchants during the grand spring opening, which begins March 12, will be attended to in detail. Merchants will use the local colors of the city and the National colors in decorating.

At a meeting of a committee composed of G. B. Anare, chairman; Fletcher Hopper and Frank Plouer, it was decided to make the week of the grand opening coincide with the week of the automobile show and by combining the two, big attractions give the visitors to Jacksonville an opportunity to see the various enterprises that constitute the city's industries.

A procedure similar to last year will follow the opening. Whistles will blow, bells will ring, lights will be out and windows darkened to hide the exhibits until the appointed time when the curtain will rise revealing the most elaborate and artistic display of merchandise ever shown by the merchants of this city.

Prizes for the best window displays will be awarded, \$25 for the best, \$15 for second and \$10 for third best.

ALTON INSPECTION TRAIN PASSES THRU

Construction Engineers and Their Clerks Look Over System—Inspected Viaducts Here.

The annual inspection train of the Chicago & Alton railroad passed thru Jacksonville yesterday. On the train were a number of construction engineers and their clerks.

The trip was made from Bloomington to Roodhouse and on the trip every bridge and trestle on the line was inspected and notation was made of its condition. In this manner the "construction special" will travel over the entire lines of the system. When the work of inspection is finished a compilation will be made and the necessary repairs on the bridges will be noted.

To formulate the needed repairs requires considerable time and the "special" is doing the work this year about two months ahead of former years in order that the work of repairing the bridges may start earlier in the season.

This inspection trip is an annual affair with the Chicago & Alton. The "special" made a stop at Jacksonville and inspected the viaducts at East College avenue and Morton avenue.

Jacksonville Lodge No. 570 A. F. & M. will hold a stated meeting tonight at 7:30 o'clock. WORK.
